

WOMEN FROM THE MARGINS

An Orbis Series Highlighting Women's Theological Voices

Women from the Margins introduces a series of books that present women's theological voices from around the world. As has long been recognized, women have shaped and continue to shape theology in distinctive ways that recognize both the particular challenges and the particular gifts that women bring to the world of theology and to ministry within the church. Their theological voices reflect the culture in which they live and the religious practices that permeate their lives.
